Design: Adobe Creative Cloud, Figma, Canva, Firefly, Premiere Pro, After Effects

Technical Design: AutoCAD, Revit, Autodesk Inventor, Fusion 360, Maya

Languages: Polish (Fluent), Spanish (Elementary)

EXPERIENCE

OPS Web Designer

University of Central Florida (UCF) | Feb 2025–Present

- Maintain and update WordPress websites through CMS and code editor workflows, implementing structured content using HTML, CSS, semantic tags, and site-specific styling conventions.
- Translate content requests into accessible, responsive web pages while maintaining design consistency and usability standards.
- Troubleshoot markup, styling, and formatting issues beyond standard editor capabilities to improve reliability of published content.
- Perform accessibility remediation, including PDF-to-HTML conversions and digital content improvements.
- Configure Gravity Forms and develop Python scripts to streamline repetitive web production tasks.

Marketing Graphic Designer

UCF Recreation & Wellness Center | Jan 2025–May 2026

- Design digital and print marketing materials including social media graphics, posters, merchandise, and promotional campaigns.
- Create branded visual content while balancing deadlines, audience needs, and campaign objectives.
- Collaborate with creative leadership to maintain consistency across campus marketing materials.
- Manage multiple concurrent projects in a high-volume production environment.

Math Academic Tutor

St. Johns River State College | Sep 2022–Dec 2023

- Provided individualized and group tutoring in STEM subjects while adapting explanations to different learning styles.

PROJECTS

Recipe Jungle

Full-Stack Web Application | 2026

- Developed a full-stack recipe platform using React 19, Supabase, PostgreSQL, and Vercel deployment.
- Built responsive interfaces, database functionality, authentication workflows, and administrative features.

Preserv

Senior Capstone Team Lead & Developer | 2025–2026

- Led a five-person team and managed development workflows using Git.
- Developed the Recipes feature including PHP backend logic, MySQL integration, JavaScript functionality, and CSS implementation.

Additional Experience

- Introduced 3D printing workflows and trained instructors on equipment use.
- Completed UI/UX redesigns, branding projects, and responsive mobile prototypes.

EDUCATION

Bachelor of Arts in Digital Media - Web & Interactive Media Track
Magna Cum Laude | GPA: 3.905

University of Central Florida | May 2026
